

## **Robert Leonard** Producer/EP

---

### **Profile:**

I am an experienced freelance producer and EP working mainly in commercials, but with experience in stills, feature films, short films and music videos ranging across all genres. I love all manner of shooting film, whether on skis astride a remote glacier at 3500m at dawn, or in a studio running 4 motion control units in unison at a bonkers frame rate. I have shot around the world and have great contacts and friendships as a result. I am multi-lingual which helps a lot. I have a wealth of experience on UK & US jobs, as well as producing for Ireland, Switzerland, China & Australia.

I come from Dublin, Ireland, and my background is in Law, which definitely helps as a producer. I consider myself a calm and considerate producer, with an eye for detail and a drive for perfection. I love problem solving, there is always a way!

On a personal level I am a proud husband and father of two young boys. I'm an outdoors enthusiast, music and film nut.

### **Commercial Production Companies:**
