Nicola Dempsey Producer

PROFILE

I'm a Producer with extensive experience of working with UK and US production companies in a multitude of countries. I'm calm, thorough, fair, a listener and working with integrity is very important to me. I'm always ready to navigate through evolving situations and can manage complex logistics and personalities whilst keeping everyone happy and on side. I have worked hard to stay versatile and I'm as comfortable with big budgets and multi-country shoots as I am with creative ventures and micro-budgets. A production chameleon, a true problem solver and creative collaborator who can adapt and change course with ease. I always strive to find solutions to better the creative and push for the highest standard whilst fiercely protecting the budget.
